

HALO

Large house or small, the kitchen is often the centre-piece of a home. Far more than just a place to prepare meals its where we connect as a family and share so many memorable moments with friends. If you're looking for new or modern cabinetry offering the latest design options and quality components, then HALO KITCHEN CABINETS provide your best choice of solutions.

HISTORY

The HALO brand is built on more than 40 years of industry experience and expertise. From our early days of making components for many of the largest brands we evolved to create our own range of cabinetry, solutions that steadily continues to expand based on customer needs and current trends.

CANADIAN

We are proudly Canadian, with a vast range of cabinetry solutions being manufactured on-site at our Canadian facility. HALO kitchen cabinets are CKCA Certified by the Canadian Kitchen Cabinet Association, who support and promote the interests of local kitchen manufacturers that meet or exceed their high standards.

UPPER CABINETS

All cabinets are quoted and sold as assembled units. Limited lifetime manufacturer's warranty.

Proudly Manufactured in Canada.

PEACE OF MIND

HALO kitchen cabinets come with a Limited Lifetime Manufacturer's Warranty. We stand behind the quality of our cabinet components and our high standards. To our past and future customers, we reinforce our commitment to product excellence and customer satisfaction.

When it comes to HALO kitchen cabinets, the possibilities are endless. We understand that kitchen remodelling is more than just door designs and handle accents. And we understand that you want everything to reflect your unique taste and personal style.

The HALO brand is built on many years of product refinement and industry experience. Our cabinet makers are focused on quality standards, current design trends and latest technologies. With over 200,000 square feet of manufacturing capacity, we carry a large and extensive inventory ensuring fast and dependable turnaround schedules.

5 Piece Door & Accessory Mouldings

ABOUT

The NEXGEN® laminates contain an antimicrobial additive to help protect against bacteria, perfect for use in homes, healthcare facilities, schools, commercial buildings and high-traffic areas.

Higher heat, stain and scratch resistant vs. RTF (vinyl) and solid wood doors

No staining or finishing required

ANTIMICROBIAL

Proprietary NEXGEN® Laminates

Our cabinet laminates contain an antimicrobial additive to help protect against bacteria – perfect for the family kitchen. NEXGEN® laminates are nearly impossible to differentiate from natural wood. Our cabinet laminates will not discolour or delaminate.

DURABILITY

Today, the kitchen is much more than just a food preparation zone. For many, it's the central hub of the home where the family gathers. The modern kitchen is now a multi-purpose space for cooking, eating, working, and even reading the news. So, it's no wonder that kitchen design has been transformed to meet these needs.

While the aesthetic design is certainly a high priority in the kitchen, smart design is also essential – to keep everything accessible, clutter-free, and easy to find. With HALO kitchen cabinets, design options are endless. Best of all, everything is quality built right here in Canada, and it all comes with a limited lifetime manufacturer's warranty.

ENVIRONMENTALLY FRIENDLY

With more and more consumers being environmentally conscious, we have decided to manufacture our kitchen cabinets using environmentally friendly composite materials.

Our composite materials are all CARB Compliant (California Air Resources Board). Our equipment produces less harmful emissions, toxins, and particulates for cleaner, safer air quality.
