GET INSPIRED AND CHOOSE YOUR STYLE

MODERN

A clean and minimalist style. Modern and functional, a contemporary kitchen is at once elegant and welcoming. An abundance of light and high-quality materials make it prestigious and inspiring.

URBAN

Warm character, with practical dimensions perfectly suited for an active lifestyle. Noble materials like wood and granite will bring an authentic, spirited, and prosperous atmosphere. Mouldings and other details are the finishing touches that make this kitchen shine.

COTTAGE

The perfect solution for a lively and accessible kitchen. By using pre-assembled cabinets, it's easy to create something simple and charming while staying on budget.

IMPORTANT QUESTIONS TO ASK YOURSELF

Are you renovating or building from scratch ? Renovating Building

What year was your house built ? _____

How many people in the household? _____ How many cooks in the kitchen? _____

Have you completed renovation projects in the past ? Yes No

Do you wish to change the layout of your kitchen in order to improve its functionality? Yes No

Which elements of your kitchen do you plan on changing?

Cabinets Counters Floor Paint Storage Sink

Faucet Backsplash Hood Lighting Others _____

Do you plan on moving any of the following items to improve the functionality of the kitchen?

Wall Drainage Doors Windows Outlets Hood

What do you like the most, and the least, in your current kitchen? (2 answers)

What would be the most important element(s) of your new kitchen?

Accent Lighting	Apron Sink	Cutlery Drawers	Fridge Panels
Glass Doors	Glass Shelves	Island Seating	Mouldings
Open Shelves	Pantry with Inner Pull-Out Drawers	Cabinets	Plate Racks
Pot & Pan Drawers	Pull-Out Spice Rack	Staggered Upper Cabinets	Tiered Cutlery Divider
Tray Dividers	Undercabinet Lighting	Other	

By when would you like your project to be completed ? _____

FIGURE OUT YOUR BUDGET

Did you know the cost of renovating your kitchen could be around 10% of your house's market value? If your budget is more limited, we have a great selection of assembled in-stock cabinets. They are less expensive than custom-made cabinets, and their quality and value are just as interesting.

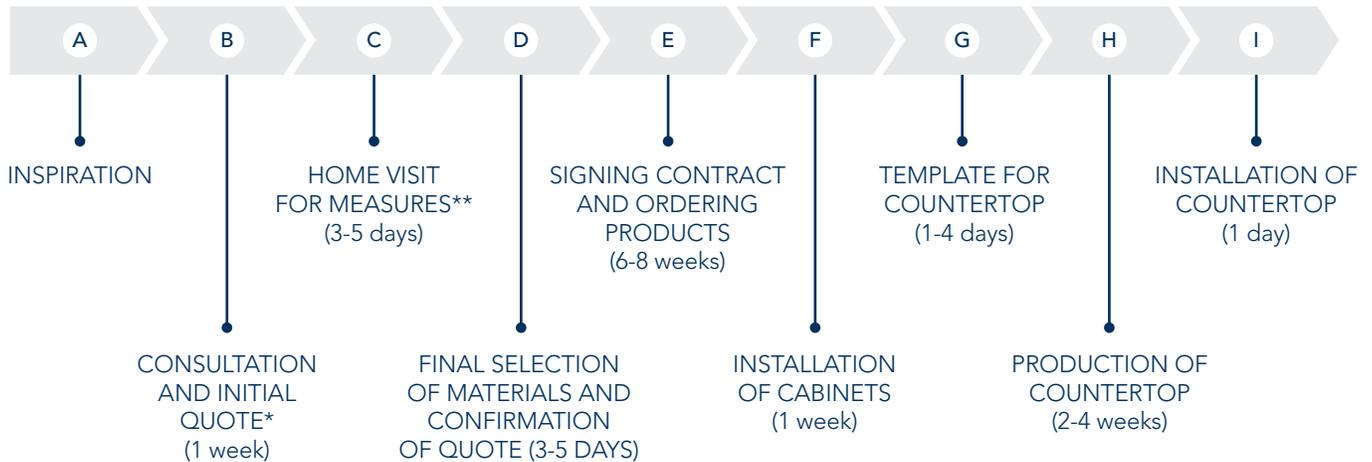

YOUR BUDGET:

\$

Credit available, do you need it? Yes No

Do you have a Visa or MasterCard Desjardins credit card? Yes No

WORK SCHEDULE FOR CUSTOM KITCHEN

WHAT TO EXPECT

- 1- We suggest to have a confirmation and a shipping date before beginning any demolition or renovation work in your kitchen. At delivery, inspect your kitchen cabinets for missing or damaged parts as this may delay the installation. If you are hiring our Installation Service, our certified contractors can take you from "TO DO" to "DONE".
- 2- If you have selected the complete installation service, make sure you empty your old cupboards and drawers before the installers arrive. Remove anything that is attached to the walls and clear the counters. The installers will remove and replace your old cabinets and countertops, and then install the new appliances and flooring included in your project, if applicable.
- 3- During installation, if your installers encounter a pre-existing or hidden problem that undermines the integrity of your project, they will inform you and the store of this and will decide if the situation must be resolved before proceeding with the project. We will provide you with solutions, depending on the problem. If additional charges apply, you can make an informed choice before the work resumes.
- 4- According to the model of counter selected, expect to do without a sink for a few days. A delay may occur between installing your cabinets and preparing, delivering and installing your counter. You can ask the installer to put in a temporary countertop and sink for an additional cost.
- 5- Although your installers make every effort to contain dust within the work area, it will no doubt spread to other parts of your home. We apologize for the inconvenience, while assuring you that your finished kitchen will make you forget these annoyances!
- 6- While your kitchen is unusable, you will temporarily need a new way to prepare meals. Consider moving your microwave oven, refrigerator and small appliances to another room, or decide on another way to get your meals.
- 7- For safety reasons, please keep children and pets away from the work area.
- 8- Once installation is completed, the installers will do a final inspection with you to ensure that the results meet your expectations.

Thank you for choosing us.

An installation contract needs to be signed and the price included in such contract needs to be signed prior to the commencement of the works.

*If needed.

**If Install Service needed. This also makes sure we plan your kitchen from right measurements.

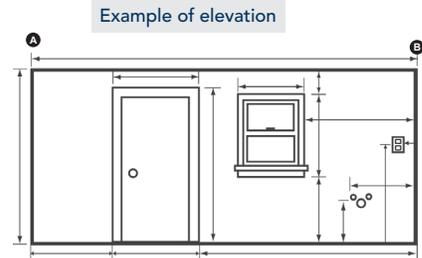

CABINET SELECTION		
FEATURE	1 ST CHOICE	2 ND CHOICE

MEASURING YOUR KITCHEN

Measurements are required at the time of your design appointment. Please complete this page as accurately as possible. This will allow us to create a design for your room. Please measure in inches.

DOOR ELEVATIONS

Record door measurements and locate each on your Floor Plan. Mark the width from the outside of the trim to the opposite outside of the trim.

DOOR	W X H	
A		
B		
C		
D		

WINDOW ELEVATIONS

Record window measurements and locate each on your Floor Plan. Mark the width from the outside of the trim to the opposite outside of the trim.

WINDOW	Floor to Trim	W X H	
A			
B			
C			
D			

WALL HEIGHT AND BULKHEAD MEASUREMENTS

Record wall height (from floor to ceiling) and bulkhead (from floor to ceiling). Locate bulkheads on Floor Plan.

Ceiling/Bulkhead Measurements			
Ceiling H: _____	Floor to Bulkhead H: _____		
Bulkhead A	W:	x D:	x H:
Bulkhead B	W:	x D:	x H:
Bulkhead C	W:	x D:	x H:

COUNTERTOP HEIGHT

Record countertop height. First, from the floor to the top of the countertop. Then from the floor to the top of the countertop backsplash.

COUNTERTOP	Measurements
Floor to top of countertop	H:
Floor to top of countertop backsplash	H:

APPLIANCES – APPLIANCE MEASUREMENTS ARE REQUIRED AT THE TIME OF YOUR DESIGN APPOINTMENT.

Be sure to visit our appliance department (online or in store) to update or add new appliances to your new kitchen!

APPLIANCE	DIMENSIONS	DETAILS	MODEL #
